Inspiring Futures Session

A High-Tech Careers Session organized by the Career Service at University of Pisa in collaboration with the HiPEAC Network will be held on **Wednesday, March 27, 2019, 14:30-18.30**.

The programme of the two parted session is available here for [part 1](#) and [part 2](#).

This session aims to bring together recruiters – mostly companies large and small, as well as universities and research centres – with potential jobseekers in the technology areas covered by DATE and HiPEAC, including:

- computer science and engineering undergraduate and master students in their final year
- early career researchers
- students attending the PhD forum or at the end of their PhDs

The programme will be tailored to the needs of the students and researchers. It will include:

- career insights and mentoring by the HiPEAC officer for recruitment activities and a careers advisor from a local university
- company pitches
- time for informal networking

For students, this session is an opportunity to:

- find out about different career paths within computer science high-end research and engineering
- get advice on possible ways of progressing their careers
- learn about the main skills employers look for
- hear about most interesting vacancies and internship opportunities from companies and research centres
- take advantage of the best environment to share their CVs with company speakers or discuss opportunities on a one-to-one basis in an informal environment
- get free access to the rest of the exhibition

For companies, this session provides an excellent opportunity to:

- get in contact with potential jobseekers specializing in the right areas for their business
- talk to jobseekers in an informal environment and collect their CVs
- promote their corporate brand as representing the best workplace, with most stimulating environment and interesting projects

The overall aim is to offer the best for companies to promote their positions – both full time vacancies and internships – and have an informal chat with the potential candidates in the audience.

How to attend

Student participation to the High-Tech Careers Session and **DATE 2019** exhibition is free of charge but registration is necessary. Please visit <https://past.date-conference.com/registration> to get more information on how to register as Exhibition Visitor.

Interested companies have to contact the DATE Exhibition Chair Luca Fanucci by email.
