D·A·T·E 2001

Conference and Exhibition: March 12-16, 2001
ICM / Neue Messe
Munich, Germany
Call for Participation

Scope of the Event

The fourth DATE conference and exhibition is the main European event bringing together design automation researchers, users and vendors, as well as specialists in the design, test and manufacturing of electronic systems and circuits.

Structure of the Event

The four day event consists of a conference with plenary invited papers, regular papers, posters, panels and tutorials as well as a commercial exhibition showing the state-of-the-art in design and test tools, methodologies, IP and design services. The organization of a user forum, user group meetings, fringe meetings, a university booth, hands-on tutorials, vendor presentations and social events offer a wide variety of extra opportunities to meet and exchange information on relevant issues for the design and test community.

Areas of Interest

Within the scope of the conference, the main areas of interest are: design methods, CAD languages, algorithms and tools, testing of electronic products and user experiences.

Submission of Papers

Papers have to be submitted electronically before September 15th, 2000 via the conference web page,
