

# Best Paper Awards

Each year the Design, Automation and Test in Europe Conference presents awards to the authors of the most outstanding papers of the previous year's conference. The selection is performed by an award committee, based on the results of the reviewing process, the quality of the final paper and the quality of the presentation.

The paper selected as the most outstanding in the field of CAD (track A) is:

**An Application Specific Design Methodology for STbus Crossbar Generation**

*by Srinivasan Murali and Giovanni De Micheli, Stanford University, USA*

The paper selected as the most outstanding in the field of Tools (track B) is:

**Design Optimization of Time- and Cost-Constrained Fault-Tolerant Embedded Systems**

*by Viacheslav Izosimov, Paul Pop, Petru Eles and Zebo Peng, Linkoping University, Sweden*

The paper selected as the most outstanding in the field of Test (track C) is:

**Accurate Reliability Evaluation and Enhancement via Probabilistic Transfer Matrices**

*by Smita Krishnaswamy, George F Viamontes, Igor L Markov and John P Hayes,  
The University of Michigan and Los Alamos National Laboratory, USA*

The paper selected as the most outstanding Interactive Presentation (track IP) is:

**Systematic Transaction Level Modeling of Embedded Systems with SystemC**

*by Wolfgang Klingauf, TU Braunschweig, Germany*

**Congratulations to the winners!**
